MICROFILMED 16 JUN 1960

1. The following traces, extracted from extensive information available here on HOETTL's activities in N. I. A. and his contact with I.G., are forwarded as of possible interest if not already known to you.
2. HOETTL first approached I.G. in March 1945 through Prince Koenigspatz, positioned in GKA-4-102, 24V-1802 and others.
3. Kurt LINDNER (ref. GKA-602, 43-104) was head of the Hungarian branch of HOETTL's Balkan intelligence network, and was brought to Austria from an interrogation center by GSS to assist in the HOETTL operation.
4. In October 1945 information was received from an informant of unknown reliability that HOETTL was attempting to reestablish contacts outside Germany, one of whom was reported to be Alfred POTOCKI in Switzerland. Our files contain a trace, dating from 1938, on an Alfred POTOCKI who was attached to the Polish Consulate in Romania and was a member of the Polish I.G. In this connection, we suggest that you ask [redacted] who was acquainted with a number of Polish I.G. officers during the war, for any information he may have concerning POTOCKI.
5. A GSS cable dated 19 October 1946, establishes that subject was in contact with Turan in Budapest or Bucharest at some time.
